

SAFETY DATA SHEET BLUE STAR R/MIXED A/FREEZ

SECTION 1: Identification of	f the substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	BLUE STAR R/MIXED A/FREEZ
Product number	BSR001, BSR005, BSR025
UFI	UFI: JWCG-HYCG-364Y-1ECW
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	Antifreeze liquid.
1.3. Details of the supplier o	f the safety data sheet
Supplier	TETROSYL EUROPE 79 rue du chemin vert 59.273 Fretin TEL: 03 20 28 06 30 qualite@tetrosyl-france.com
Manufacturer	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com
1.4. Emergency telephone n	umber
Emergency telephone	+44 (0)161 764 5981 (24 hrs)
SECTION 2: Hazards identif	ication
2.1. Classification of the sub	stance or mixture
Classification (SI 2019 No. 7	
Physical hazards	Not Classified
Health hazards	Acute Tox. 4 - H302 STOT RE 2 - H373
Environmental hazards	Not Classified
2.2. Label elements	
Hazard pictograms	
Signal word	Warning

Hazard statements	H302 Harmful if swallowed. H373 May cause damage to organs through prolonged or repeated exposure.
Precautionary statements	 P264 Wash contaminated skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P501 Dispose of contents/ container in accordance with local regulations. P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.
UFI	UFI: JWCG-HYCG-364Y-1ECW
Contains	ETHANEDIOL
2.3. Other hazards	

This product contains substances classified as PBT.

SECTION 3: Composition/information on ingredients

3.2. Mixtures		
ETHANEDIOL		30-<60%
CAS number: 107-21-1	EC number: 203-473-3	
Classification		
Acute Tox. 4 - H302		
STOT RE 2 - H373		
The full text for all hazard statem	ents is displayed in Section 16.	

SECTION 4: First aid measures 4.1. Description of first aid measures General information Effects may be delayed. Keep affected person under observation. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. Get medical attention. Remove affected person from source of contamination. Place unconscious person on the side in the recovery position and ensure breathing can take place. Never give anything by mouth to an unconscious person. Inhalation Remove affected person from source of contamination. Get medical attention if any discomfort continues. For breathing difficulties, oxygen may be necessary. If breathing stops, provide artificial respiration. If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. If throat irritation or coughing persists, proceed as follows. Get medical attention. Show this Safety Data Sheet to the medical personnel. Ingestion Get medical attention immediately. Never give anything by mouth to an unconscious person. Try to induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Rinse mouth thoroughly with water. Give plenty of water to drink. Get medical attention if a large quantity has been ingested. Show this Safety Data Sheet to the medical personnel. Skin contact Remove contaminated clothing and rinse skin thoroughly with water. Get medical attention if any discomfort continues. Eye contact Do not rub eye. Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing. Show this Safety Data Sheet to the medical personnel.

4.2. Most important symptoms and effects, both acute and delayed

General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.
Inhalation	Irritation of nose, throat and airway.
Ingestion	May cause discomfort if swallowed. May cause unconsciousness, blindness and possibly death. Central nervous system depression.
Skin contact	Prolonged skin contact may cause redness and irritation.
Eye contact	Irritation, burning, lachrymation, blurred vision after liquid splash.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with the following media: Foam, carbon dioxide or dry powder. Use fire- extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from	om the substance or mixture
Specific hazards	No unusual fire or explosion hazards noted.
Hazardous combustion products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.
5.3. Advice for firefighters	
Protective actions during firefighting	No specific firefighting precautions known.
Special protective equipment for firefighters	Leave danger zone immediately. Use protective equipment appropriate for surrounding materials.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation of spray mist and contact with skin and eyes. In case of spills, beware of slippery floors and surfaces.
6.2. Environmental precaution	<u>s</u>
Environmental precautions	Collect and dispose of spillage as indicated in Section 13. Avoid release to the environment. Avoid discharge into drains or watercourses or onto the ground.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Stop leak if possible without risk. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Provide adequate ventilation. Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb spillage with non-combustible, absorbent material.
6.4. Reference to other section	ns
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet. For waste

3/8

disposal, see section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe ha	Indling		
Usage precautions	Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product. Avoid inhalation of vapours/spray and contact with skin and eyes. Avoid the formation of mists. Observe any occupational exposure limits for the product or ingredients. Avoid inhalation of vapours and spray/mists. Pregnant or breastfeeding women should not work with this product if there is any risk of exposure. Pregnant or breastfeeding women should not work with this product if there is any risk of exposure.		
7.2. Conditions for safe storage, including any incompatibilities			
Storage precautions	Keep away from heat, sparks and open flame. Keep container tightly closed. Keep containers upright. Keep only in the original container. Avoid contact with oxidising agents.		
7.3. Specific end use(s)			
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.		
SECTION 8: Exposure con	trols/Personal protection		

8.1. Control parameters

Occupational exposure limits

No exposure limits known for ingredient(s).

ETHANEDIOL

Long-term exposure limit (8-hour TWA): WEL 20 ppm 52 mg/m³ vapour Short-term exposure limit (15-minute): WEL 40 ppm 104 mg/m³ vapour Sk Long-term exposure limit (8-hour TWA): WEL 10 mg/m³ particulate Sk

WEL = Workplace Exposure Limit. Sk = Can be absorbed through the skin.

8.2. Exposure controls

Protective equipment

Appropriate engineering controls	Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients. Provide adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
Hand protection	It is recommended that gloves are made of the following material: Nitrile rubber. Chemical- resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination.

Hygiene measures	Provide eyewash station. Wash contaminated clothing before reuse. Wash at the end of each work shift and before eating, smoking and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties			
Appearance	Clear liquid.		
Colour	Blue.		
Odour	Odourless.		
Odour threshold	Scientifically unjustified. Scientifically unjustified.		
рН	pH (concentrated solution): 9.0		
Melting point	Scientifically unjustified.		
Initial boiling point and range	110°C @		
Flash point	Technically not feasible.		
Evaporation rate	Scientifically unjustified.		
Upper/lower flammability or explosive limits	Scientifically unjustified.		
Vapour pressure	Scientifically unjustified.		
Vapour density	Scientifically unjustified.		
Relative density	1.044 g/cm³ @ 20°C		
Solubility(ies)	Soluble in water.		
Partition coefficient	Scientifically unjustified.		
Auto-ignition temperature	Scientifically unjustified.		
Decomposition Temperature	Scientifically unjustified.		
Viscosity	<50 cP @ 20°C		
9.2. Other information			
Other information	None.		
SECTION 10: Stability and rea	activity		
10.1. Reactivity			
Reactivity	The following materials may react with the product: Oxidising materials.		
10.2. Chemical stability			
Stability	Stable at normal ambient temperatures and when used as recommended.		
10.3. Possibility of hazardous	reactions		
Possibility of hazardous reactions	Not determined.		
10.4. Conditions to avoid			

Conditions to avoid	Avoid contact with the following materials: Oxidising materials.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents.
10.6. Hazardous decompositio	on products
Hazardous decomposition products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.
SECTION 11: Toxicological in	formation
11.1. Information on toxicologi	cal effects
Toxicological effects	No information available.
Acute toxicity - oral	Based on available data the classification criteria are not met.
Summary	
Notes (oral LD₅o)	MONO ETHYLENE GLYCOL
ATE oral (mg/kg)	1,422.17
Acute toxicity - dermal Summary	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Summary	Based on available data the classification criteria are not met.
Skin corrosion/irritation Summary	Based on available data the classification criteria are not met.
Serious eye damage/irritation Summary	Based on available data the classification criteria are not met.
Respiratory sensitisation Summary	Based on available data the classification criteria are not met.
Skin sensitisation Summary	Based on available data the classification criteria are not met.
Germ cell mutagenicity Summary	Based on available data the classification criteria are not met.
Carcinogenicity Summary	Based on available data the classification criteria are not met.
Reproductive toxicity Summary	Based on available data the classification criteria are not met.
Specific target organ toxicity -	
Summary	Based on available data the classification criteria are not met.
Target organs	Central nervous system Heart and cardiovascular system Kidneys
Specific target organ toxicity -	
Summary	Based on available data the classification criteria are not met.
Aspiration hazard Summary	Based on available data the classification criteria are not met.

Inhalation	Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature. Vapours may irritate throat/respiratory system. Symptoms following overexposure may include the following: Coughing.	
Ingestion	May cause liver and/or renal damage. Irritating. Symptoms following overexposure may include the following: Nausea, vomiting. Stomach pain. Harmful: possible risk of irreversible effects if swallowed.	
Skin contact	Slightly irritating.	
Eye contact	May cause temporary eye irritation.	
Acute and chronic health hazards	This chemical can be hazardous when inhaled and/or touched. This product is corrosive. This product may cause skin and eye irritation. Prolonged contact may cause burns. May cause severe internal injury. Vapour from this product may be hazardous by inhalation.	
Route of exposure	Inhalation Ingestion. Skin and/or eye contact Skin absorption	
Target organs	Central nervous system Heart & cardiovascular system Kidneys	
Medical symptoms	Allergic rash. Delayed, often serious, breathing problems. Tachycardia (excessively rapid heart beat, including rapid and weak pulse). Unconsciousness, possibly death.	
SECTION 12: Ecological inform	mation	
Ecotoxicity	Dangerous for the environment if discharged into watercourses.	
12.1. Toxicity		
Acute aquatic toxicity		
Acute toxicity - fish	Mono Ethylene Glycol LC₅o, 96 hours: >100 mg/l, Fish	
Acute toxicity - aquatic invertebrates	Not available.	
12.2. Persistence and degradability		
Persistence and degradability	The product is readily biodegradable.	
12.3. Bioaccumulative potential		
_		

Bioaccumulative potential	The product is not bioaccumulating.
Partition coefficient	Scientifically unjustified.
12.4. Mobility in soil	
Adsorption/desorption coefficient	Not available.
12.5. Results of PBT and vPv	vB assessment
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current UK criteria.

12.6. Other adverse effects		
Other adverse effects	Not applicable.	

SECTION 13: Disposal considerations

13.1. Waste treatment methods

General information

Waste is classified as hazardous waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

Disposal methods Confirm disposal procedures with environmental engineer and local regulations. SECTION 14: Transport information General The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID). 14.1. UN number Not applicable. 14.2. UN proper shipping name Not applicable. 14.3. Transport hazard class(es) No transport warning sign required. 14.4. Packing group Not applicable. 14.5. Environmental hazards Environmentally hazardous substance/marine pollutant No. 14.6. Special precautions for user Not applicable. 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code SECTION 15: Regulatory information 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture 15.2. Chemical safety assessment No chemical safety assessment has been carried out.

SECTION 16: Other information

Revision comments	NOTE: Lines within the margin indicate significant changes from the previous revision.
Issued by	Regulatory Department
Revision date	19/07/2022
Revision	17
Supersedes date	07/04/2022
SDS status	Approved.
Hazard statements in full	H302 Harmful if swallowed. H319 Causes serious eye irritation. H360FD May damage fertility. May damage the unborn child. H373 May cause damage to organs through prolonged or repeated exposure. H373 May cause damage to organs (Kidneys) through prolonged or repeated exposure.
