

## PRODUCT INFORMATION SHEET

### CARPLAN LEATHER VALET CLEAN & FEED KIT

#### DESCRIPTION

Leather seats and trim are becoming increasingly popular in family cars as well as sport models. But while air-con and heated seats help keep motorists comfortable, they are bad news for leather as they slowly remove the essential oils within the material. Leather is a durable material but it can age prematurely if these natural oils are not replaced. To allow leather to keep its healthy, subtle texture, it must not be allowed to become ingrained. Leather is dissimilar to other materials where a soft damp cloth can be used to wipe away dirt and dust, as soap and water can cause leather to crack and harden over time.

The Leather Valet Clean & Feed Kit conditions as well as cleans to replace the essential oils that are lost through heating, bringing the leather back to life and restoring that luxurious leather aroma.

#### ADVANTAGES

- Suitable for all leather seat colours
- Cleans, protects & preserves
- Provides a luxurious leather aroma

#### APPLICATION

- Add a small amount of the Leather Cleaner to the Microfibre Cloth and apply to the leather taking care not to soak the treated area
- Gently wipe the product into the leather using a circular motion, removing all dirt
- Apply Leather conditioner sparingly with a soft clean cotton cloth and gently work over the surface until the rich cream slowly disappears
- When dry buff lightly with the Polishing Applicator Pad

#### PROPERTIES

##### Leather Cleaner – Detergent Information

< 5 %	Anionic surfactants
< 5 %	Non-ionic surfactants
< 5 %	Perfumes
Contains Benzisothiazolinone, Methylisothiazolinone	

##### Leather Protector – Detergent Information

5 - < 15 %	Anionic surfactants
< 5 %	Perfumes
Contains Benzisothiazolinone, Methylisothiazolinone
