

SAFETY DATA SHEET **DE-IONISED WATER**

SECTION 1: Identification of	the substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	DE-IONISED WATER
Product number	DEW025, DIW000, DIW005, DIW250, DIW258, DIW259, DIW805, DIW905
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	Auto shampoo.
1.3. Details of the supplier of	the safety data sheet
Supplier	TETROSYL EUROPE 79 rue du chemin vert 59.273 Fretin TEL: 03 20 28 06 30 qualite@tetrosyl-france.com
Manufacturer	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com
1.4. Emergency telephone n	umber
Emergency telephone	+44 (0)161 764 5981 (24 hrs)
SECTION 2: Hazards identif	ication
2.1. Classification of the sub	stance or mixture
Classification (SI 2019 No. 7	20)
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Not Classified
2.2. Label elements	
Hazard statements	NC Not Classified
Precautionary statements	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.
2.3. Other hazards	

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

4.1. Description of first aid measures

InhalationUnlikely route of exposure as the product does not contain volatile substances.IngestionGet medical attention if any discomfort continues. Rinse mouth thoroughly with water. Give plenty of water to drink.Skin contactDry skin with paper towel or similar. Use suitable lotion to moisturise skin.Eye contactRinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continues.4.2. Most important symptoms and effects, both acute and delayedGeneral informationThe severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.InhalationNo specific symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.InhalationNo specific symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.InhalationNo specific symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.InhalationNo specific symptoms known.IngestionMay cause discomfort if swallowed. May cause stomach pain or vomiting.Skin contactWay cause temporary eye irritation.4.3. Indication of any ImmediaExtinguishing mediaStin contactNo specific recommendations. If in doubt, get medical attention promptly.Sectron S. Firefighting mediaExtinguishing media suitable for the surrounding fire.Unsultable extinguishing media <td< th=""><th>General information</th><th>Get medical attention if any discomfort continues. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Effects may be delayed. Keep affected person under observation.</th></td<>	General information	Get medical attention if any discomfort continues. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Effects may be delayed. Keep affected person under observation.		
plenty of water to drink. Skin contact Dry skin with paper towel or similar. Use suitable lotion to moisturise skin. Eye contact Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye. Get medical attention if any discomfort continues. 4.2. Most important symptoms ard effects, both acute and delayed General information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation. Inhalation No specific symptoms known. Ingestion May cause discomfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged contact may cause redness, irritation and dry skin. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting media Extinguishing media Suitable extinguishing media Extinguish with the following media: Foam, carbon dioxide or dry powder. Water. Use fire-extinguishing media Special hazards arising from the substance or mixture Special hazards noted. Special hazards arising media suitable for the surrounding fire. No known hazardous decomposition products. Special hazards Not relevant. No unusual fire or explosion	Inhalation	Unlikely route of exposure as the product does not contain volatile substances.		
Eye contact Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye. Get medical attention if any discomfort continues. 4.2. Most important symptoms and effects, both acute and delayed General information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation. Inhalation No specific symptoms known. Ingestion May cause discomfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged contact may cause redness, irritation and dry skin. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting media Extinguishing media: Foam, carbon dioxide or dry powder. Water. Use fire-extinguishing media suitable for the surrounding fire. Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Specific hazards Not relevant. No unusual fire or explosion hazards noted. Hazardous combustion products Nok nown hazardous decomposition products. Specific hazards Not relevant. Specific for firefightfers </th <th>Ingestion</th> <th></th>	Ingestion			
apart. Continue to rinse for at least 15 minutes. Do not rub eye. Get medical attention if any discomfort continues. 4.2. Most important symptoms and effects, both acute and delayed General information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation. Inhalation No specific symptoms known. Ingestion May cause discomfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged contact may cause redness, irritation and dry skin. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate tendical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SEECTION 5: Firefighting media Extinguish with the following media: Foam, carbon dioxide or dry powder. Water. Use fire-extinguishing media suitable extinguishing media suitable for the surrounding fire. Unsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. Specific hazards Not relevant. No unusual fire or explosion hazards noted. Hazardous combustion No known hazardous decomposition products. Friefighting Sol kolve for firefighters Protective actions during Not relevant. Special prote	Skin contact	Dry skin with paper towel or similar. Use suitable lotion to moisturise skin.		
General information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation. Inhalation No specific symptoms known. Ingestion May cause discomfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged contact may cause redness, irritation and dry skin. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting media Extinguish with the following media: Foarn, carbon dioxide or dry powder. Water. Use fire-extinguishing media Suitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Unsuitable extinguishing media Not relevant. No unusual fire or explosion hazards noted. Hazardous combustion products No known hazardous decomposition products. 5.3. Advice for firefighters Not relevant. SECTION 6: Accidental release measures				

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.

6.2. Environmental precautions

Environmental precautions Avoid discharge to the aquatic environment.

6.3. Methods and material for containment and cleaning up

Methods for cleaning upFor waste disposal, see Section 13. Wear protective clothing as described in Section 8 of this
safety data sheet. Provide adequate ventilation. Contain spillage with sand, earth or other
suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or
watercourses. Absorb spillage with non-combustible, absorbent material.

6.4. Reference to other sections

Reference to other sections	s Collect and dispose of spillage as indicated in Section 13. For personal protection, s	
	Section 8.	

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions Read and follow manufacturer's recommendations. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Avoid contact with eyes. Avoid eating, drinking and smoking when using the product.

7.2. Conditions for safe storage, including any incompatibilities

 Storage precautions
 Keep containers upright. Store in tightly-closed, original container.

 7.3. Specific end use(s)
 Image: Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.2.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

Occupational exposure limits

No exposure limits known for ingredient(s).

8.2. Exposure controls

Protective equipment

Appropriate engineering controls	No specific ventilation requirements. This product must not be handled in a confined space without adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Hygiene measures	Provide eyewash station and safety shower. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.
Respiratory protection	Respiratory protection not required.

DE-IONISED WATER

SECTION 9: Physical and chemical properties		
9.1. Information on basic physical and chemical properties		
Appearance	Liquid.	
Odour threshold	Not determined.	
Melting point	Not determined.	
Evaporation rate	Not determined.	
Upper/lower flammability or explosive limits	Not determined.	
Vapour pressure	Not determined.	
Vapour density	Not determined.	
Solubility(ies)	Soluble in water.	
Partition coefficient	Not determined.	
Auto-ignition temperature	Not determined.	
Decomposition Temperature	Not determined.	
Oxidising properties	Not available.	
9.2. Other information		
Other information	None.	
SECTION 10: Stability and rea	activity	
10.1. Reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
10.2. Chemical stability		
Stability	No particular stability concerns.	
10.3. Possibility of hazardous	reactions	
Possibility of hazardous reactions	Not applicable.	
10.4. Conditions to avoid		
Conditions to avoid	Not relevant.	
10.5. Incompatible materials		
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.	
10.6. Hazardous decompositio	10.6. Hazardous decomposition products	
Hazardous decomposition products	Does not decompose when used and stored as recommended.	
SECTION 11: Toxicological in	formation	
11.1. Information on toxicological effects		
Toxicological effects	No information available.	
Acute toxicity - oral Summary	Based on available data the classification criteria are not met.	

	Acute toxicity - dermal Summary	Based on available data the classification criteria are not met.
	Acute toxicity - inhalation Summary	Based on available data the classification criteria are not met.
	Skin corrosion/irritation	
	Summary	Based on available data the classification criteria are not met.
	Serious eye damage/irritation Summary	Based on available data the classification criteria are not met.
	Respiratory sensitisation	
	Summary	Based on available data the classification criteria are not met.
	Skin sensitisation Summary	Based on available data the classification criteria are not met.
	Germ cell mutagenicity	
	Summary	Based on available data the classification criteria are not met.
	Summary	Based on available data the classification criteria are not met.
	Reproductive toxicity Summary	Based on available data the classification criteria are not met.
Specific target organ toxicity - single exposure		
	Summary	Based on available data the classification criteria are not met.
	Specific target organ toxicity - r	repeated exposure
	Summary	Based on available data the classification criteria are not met.
	Aspiration hazard	
	Summary	Based on available data the classification criteria are not met.
	SECTION 12: Ecological inform	nation
	Ecotoxicity	Not regarded as dangerous for the environment.
	<u>12.1. Toxicity</u>	
	Acute aquatic toxicity Acute toxicity - fish	Not available.
	Acute toxicity - aquatic invertebrates	Not available.
	12.2. Persistence and degradability	
	Persistence and degradability There are no data on the degradability of this product.	
	12.3. Bioaccumulative potentia	<u>I</u>
	Bioaccumulative potential	No data available on bioaccumulation.
	Partition coefficient	Not determined.
	12.4. Mobility in soil	
	Adsorption/desorption	Not available.
	coefficient	

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB This substance is not classified as PBT or vPvB according to current UK criteria. assessment

12.6. Other adverse effect	<u>s</u>	
Other adverse effects	Not available.	
SECTION 13: Disposal co	nsiderations	
13.1. Waste treatment me	thods	
General information	Waste should be treated as controlled waste.	
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Confirm disposal procedures with environmental engineer and local regulations. Following dilution, discharge to the sewer with plenty of water may be permitted.	
SECTION 14: Transport information		

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Revision comments

NOTE: Lines within the margin indicate significant changes from the previous revision.
