

PRODUCT INFORMATION SHEET

Easy On Joint & Filler Compound

Description

Tetrion Easy On has been developed as a high performance, high quality interior filling and jointing compound for filling joints, cracks, holes and gaps in many household materials including plaster, wood, stone, brickwork and many other building materials. The special 'dual-action' formulation means Tetrion Easy On cures effectively when filling joints, gaps and cracks and provides a fine, easily sanded smooth repaired surface – without the need for a separate 'finishing' filler.

Plaster board jointing – Tetrion Easy On is also ideal for use as a high performance two-coat filler/finish jointing compound for drywall systems.

Features

- Features air-dried hardening properties and chemical-setting characteristics enabling deep-fill applications whilst achieving a smooth easily sandable finish
- Easy to mix and apply
- Minimal shrinkage
- Working life of an hour
- If required, finishing coat can be applied after just 140 minutes.
- Excellent coverage at over 20m²/5Kg
- Contains 10 x 500g sealed job packets for extended 'shelf-life'.

Directions For Use

Ensure all surfaces are dry, clean and free from any loose materials. Ass 2 parts Tetrion Easy On to 1 part water and mix thoroughly. Add more water/powder as necessary. Apply with a filling knife or float and smooth off any excess. Tetrion Easy On has a working life of approximately 60 minutes and setting occurs after approximately 140 minutes. Due to Tetrion Easy On's special curing properties the filler can be applied into deeper cracks without the need to 'build up' layers as with traditional 'air-dried' powder fillers.

AVAILABILITY

5Kg sack of 10, 500g packs

Tetrostyl

DISCLAIMER

This Product Information Sheet does not constitute to any extent a fitness for purpose warranty or a quality specification. It is intended to be indicative only of the general characteristics of the product(s) and may not be relied upon (in whole or in part) in substitution of nor as a supplement to any of the information and/or instructions and/or warnings set out on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet (which is available on request).

Neither of the publisher of this Product Information Sheet or the product(s) manufacturer accepts liability for the failure of any person to observe and follow the information and/or instructions and/or warnings on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet.

Any person selecting and using or causing the product(s) to be used for a specific purpose or any third party recommending the product(s) for a specific purpose without in either case first making all appropriate inquiries as to the suitability of the product(s) for the intended purpose does so at his/her/their own risk and no liability is accepted by the publisher or the product(s) manufacturer for any consequent loss, damage or injury, other than such liability as may not (by operation of law) be excluded.

This Product Information Sheet does not apply to the use of the product(s) in any combination or with other products or materials.

Users of a product or products marked "For Professional Use Only" are deemed to declare and acknowledge for themselves professional levels of skill, knowledge, competence and experience in the selection and use of such product(s).

Product Information Sheets are updated from time to time and inquiries should be made on a regular basis to ensure that this is the latest version available.
