

PRODUCT INFORMATION SHEET

TETROSYL'S EASY SPRAY

DESCRIPTION

Easy Spray all-purpose paint is an acrylic based spray paint for interior and exterior use. It is suitable for many surfaces including wood, metal, MDF, ceramic and plastic.

Preparation:

- Ensure surface is clean and dry
- If surface to be sprayed is glossy, lightly sand with fine abrasive paper to ensure a good key for the paint.
- Tetrosyl Easy Spray can be used on its own but to ensure a long lasting high quality finish on metal and particularly on flexible plastic, first apply a primer.
- If paint surface is unknown test compatibility on a small inconspicuous area similar to that being sprayed.

Colour Application & Drying Times:

- Shake can for a minimum of two minutes.
- Hold can 20-30 cm (8-12 inches) from surface. Spray in alternate horizontal and vertical strokes.
- Apply several coats, allowing each coat to become tacky between applications (approximately 10 minutes). Shake can in between applications
- Regularly invert can and spray to remove paint from nozzle. On completion of use, invert can and spray to remove paint from nozzle. Clean any dried paint from nozzle with a pin.
- Tetrosyl Spray is touch dry in 10 minutes. Leave for 24 hours to harden. For extra protection or a gloss finish use Tetrosyl Clear Finish as a topcoat. When painting plastics use Tetrosyl Plastic Primer to avoid flaking.

STORAGE:

Store and use this paint at room temperature. Low temperature below 10°C may reduce aerosol performance.

NOTE:

Food products must be removed from the area during application and cure. A detailed Health and Safety information sheet in compliance with C.O.S.H. is available. Ensure can is empty before disposal.

AVAILABILITY

400 ml Aerosol cans in different colours.

**DISCLAIMER**

This Product Information Sheet does not constitute to any extent a fitness for purpose warranty or a quality specification. It is intended to be indicative only of the general characteristics of the product(s) and may not be relied upon (in whole or in part) in substitution of nor as a supplement to any of the information and/or instructions and/or warnings set out on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet (which is available on request).

Neither of the publisher of this Product Information Sheet or the product(s) manufacturer accepts liability for the failure of any person to observe and follow the information and/or instructions and/or warnings on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet.

Any person selecting and using or causing the product(s) to be used for a specific purpose or any third party recommending the product(s) for a specific purpose without in either case first making all appropriate inquiries as to the suitability of the product(s) for the intended purpose does so at his/her/their own risk and no liability is accepted by the publisher or the product(s) manufacturer for any consequent loss, damage or injury, other than such liability as may not (by operation of law) be excluded.

This Product Information Sheet does not apply to the use of the product(s) in any combination or with other products or materials.

Users of a product or products marked "For Professional Use Only are deemed to declare and acknowledge for themselves professional levels of skill, knowledge, competence and experience in the selection and use of such product(s).

Product Information Sheets are updated from time to time and inquiries should be made on a regular basis to ensure that this is the latest version available.
