

STANDARD THINNERS

Product Information

TETROSYL STANDARD THINNERS are ideal for use as a cleaning product for the removal of solvent based wet paint from Spray-guns, mixing sticks, brushes and other paint application equipment.

TETROSYL STANDARD THINNERS should not be used to thin paint, as this would be non-compliant (unless exempted for industrial or classic car usage) and is not recommended as a Pre-Wipe degreaser. Spray-guns should not be left to soak in TETROSYL STANDARD THINNERS as this may attack the internal parts of the spray-gun, which are made from Aluminium and quite reactive..

Properties

Colour Transparent, but not always 'Water white'.

As TETROSYL STANDARD THINNERS is a recycled solvent the colour and smell may vary from batch to batch, but this doesn't effect the cleaning properties of the product.

Shelf Life

TETROSYL STANDARD THINNERS has a shelf life of 3 months from the date of manufacture (DoM can be found on the top of the drum STT025 and STT450 or on the side of the can for STT005)

Storage

TETROSYL STANDARD THINNERS should always be stored in upright sealed metal containers away from heat and direct sunlight.

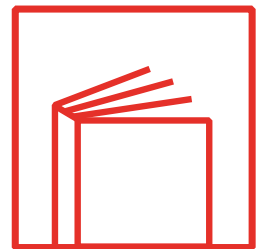

Waste Disposal

Waste is classified as hazardous waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Do not allow TETROSYL STANDARD THINNERS to enter water courses or drains. Absorb spillage with non-combustible, absorbent material.
