

SAFETY DATA SHEET CARLUBE 46 HYDRAULIC

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	CARLUBE 46 HYDRAULIC	
Product number	XBC046, YHK025, YHK199	
1.2. Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses	Engine oil.	
1.3. Details of the supplier of the safety data sheet		
Supplier	TETROSYL EUROPE 79 rue du chemin vert 59.273 Fretin TEL: 03 20 28 06 30 qualite@tetrosyl-france.com	
Manufacturer	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com	
1.4. Emergency telephone number		
Emergency telephone	+44 (0)161 764 5981 (24 hrs)	
SECTION 2: Hazards identification		
2.1. Classification of the subst		
Classification (SI 2019 No. 72) Physical hazards	0) Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
Human health 2.2. Label elements	See Section 11 for additional information on health hazards.	
Hazard statements	NC Not Classified	
Precautionary statements	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.	
2.3. Other hazards Not applicable.		

SECTION 3: Composition/information on ingredients			
3.2. Mixtures			
DISTILLATES, HYDROTREATED HEAVY PARAFFINIC 30-<60% <3% DMSO EXTRACT (IP 346)			
CAS number: 64742-54-7	EC number: 265-157-1	UK REACH registration number: UK-01- 1759217276-5-0000	
Classification Asp. Tox. 1 - H304			
The full text for all hazard state	ements is displayed in Section 16.		
SECTION 4: First aid measure	es		
4.1. Description of first aid me	asures		
General information	Remove affected person from source of contam continues.	ination. Get medical attention if any discomfort	
Inhalation	Get medical attention if any discomfort continue	S.	
Ingestion	Consult a physician for specific advice.		
Skin contact	Remove contaminated clothing immediately and	l wash skin with soap and water.	
Eye contact	Rinse immediately with plenty of water. Remove apart. Continue to rinse for at least 15 minutes.		
4.2. Most important symptoms	and effects, both acute and delayed		
General information	The severity of the symptoms described will var length of exposure. Effects may be delayed. Kee		
Inhalation	May cause an asthma-like shortness of breath. dizziness and nausea.	Vapours may cause headache, fatigue,	
Ingestion	May cause discomfort if swallowed. May cause headache, dizziness and intoxication.	stomach pain or vomiting. May cause nausea,	
Skin contact	Prolonged or repeated contact with skin may ca rash.	use irritation, redness and dermatitis. Allergic	
Eye contact	May cause temporary eye irritation.		
4.3. Indication of any immedia	te medical attention and special treatment needed	1	
Notes for the doctor	No specific recommendations. If in doubt, get m	edical attention promptly.	
SECTION 5: Firefighting meas	sures		
5.1. Extinguishing media			
Suitable extinguishing media	Use fire-extinguishing media suitable for the sur	rounding fire.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this	will spread the fire.	
5.2. Special hazards arising fr	om the substance or mixture		
Specific hazards	Fire creates: Carbon monoxide (CO). Carbon di hazards noted.	oxide (CO2). No unusual fire or explosion	
Hazardous combustion products	Thermal decomposition or combustion may liber vapours. Oxides of carbon.	rate carbon oxides and other toxic gases or	

5.3. Advice for firefighters

Protective actions during firefighting	No specific firefighting precautions known.
Special protective equipment for firefighters	Leave danger zone immediately.

SECTION 6: Accidental release measures

OF CHICK C. Accidental release	
6.1. Personal precautions, protective equipment and emergency procedures	
Personal precautions	For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.
6.2. Environmental precautions	
Environmental precautions	Collect and dispose of spillage as indicated in Section 13.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	For waste disposal, see Section 13. Wear protective clothing as described in Section 8 of this safety data sheet. Provide adequate ventilation. Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb spillage with non-combustible, absorbent material.
6.4. Reference to other section	ns
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet. Collect and dispose of spillage as indicated in Section 13.
SECTION 7: Handling and sto	brage
7.1. Precautions for safe handling	
Usage precautions	Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product. Avoid the formation of mists. Provide adequate ventilation. Avoid contact with skin and eyes. Always remove oil with soap and water or skin cleaning agent, never use organic solvents. Do not use oil-contaminated clothing or shoes, and do not put rags moistened with oil into pockets.
7.2. Conditions for safe storage, including any incompatibilities	
Storage precautions	Keep containers upright. Store in tightly-closed, original container.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure controls/Personal protection	
8.1. Control parameters	

Occupational exposure limits

No exposure limits known for ingredient(s).

DISTILLATES, HYDROTREATED HEAVY PARAFFINIC <3% DMSO EXTRACT (IP 346) (CAS: 64742-54-7)

DNEL

Workers - Inhalation; Long term systemic effects: 2.73 mg/m³ Workers - Dermal; Long term systemic effects: 0.97 mg/kg General population - Oral; Long term systemic effects: 0.74 mg/kg Workers - Inhalation; Long term local effects: 5.58 mg/m³ General population - Inhalation; Long term local effects: 1.19 mg/m³

MINERAL OIL - H304 (<3% DMSO EXTRACT, IP 346) (CAS: 64742-55-8)

DNEL	Workers - Dermal; Long term systemic effects: 0.97 mg/kg Workers - Inhalation; Long term local effects: 5.58 mg/m ³ Workers - Inhalation; Long term systemic effects: 2.73 mg/m ³ General population - Oral; Long term systemic effects: 0.74 mg/kg General population - Inhalation; Long term local effects: 1.19 mg/m ³
8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate ventilation. Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. It is recommended that gloves are made of the following material: Nitrile rubber. It should be noted that liquid may penetrate the gloves. Frequent changes are recommended.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination.
Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level.
Respiratory protection	No specific recommendations.
SECTION 9: Physical and chemical properties	
9.1. Information on basic physical and chemical properties	

<u></u>	
Appearance	Oily liquid. Liquid.
Colour	Straw.
Odour	Oil-like.
рН	Scientifically unjustified.
Melting point	Not determined.
Initial boiling point and range	>250°C @ 1013 hPa
Flash point	>150°C
Evaporation rate	Not determined.
Upper/lower flammability or explosive limits	Not determined.
Vapour pressure	Not determined.
Vapour density	Not determined.
Relative density	0.870g/cm³ @ 20°C
Solubility(ies)	Insoluble in water.

Destition on efficient	
Partition coefficient	Not determined.
Auto-ignition temperature	Not determined.
Decomposition Temperature	Not determined.
Viscosity	46 mm²/s @ 40°C
9.2. Other information	
Other information	None.
SECTION 10: Stability and rea	ıctivity
10.1. Reactivity	
Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	No particular stability concerns.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	Not applicable.
10.4. Conditions to avoid	
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
10.5. Incompatible materials	
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
10.6. Hazardous decomposition	on products
Hazardous decomposition products	Does not decompose when used and stored as recommended.
SECTION 11: Toxicological in	formation
11.1. Information on toxicologi	cal effects
Acute toxicity - oral	
Summary	Based on available data the classification criteria are not met.
Notes (oral LD₅₀)	Petroleum Distillates (Solvents Neutral)
Notes (oral LD∞) <u>Acute toxicity - dermal</u> Summary	Petroleum Distillates (Solvents Neutral) Based on available data the classification criteria are not met.
Acute toxicity - dermal	
Acute toxicity - dermal Summary Acute toxicity - inhalation	Based on available data the classification criteria are not met.
Acute toxicity - dermal Summary Acute toxicity - inhalation Summary Skin corrosion/irritation	Based on available data the classification criteria are not met. Based on available data the classification criteria are not met.
Acute toxicity - dermal Summary Acute toxicity - inhalation Summary Skin corrosion/irritation Summary Serious eye damage/irritation	Based on available data the classification criteria are not met. Based on available data the classification criteria are not met. Based on available data the classification criteria are not met.

Summary	Based on available data the classification criteria are not met.	
Germ cell mutagenicity		
Summary	Based on available data the classification criteria are not met.	
Carcinogenicity Summary	Based on available data the classification criteria are not met.	
Reproductive toxicity Summary	Based on available data the classification criteria are not met.	
Specific target organ toxicity -	single exposure	
Summary	Based on available data the classification criteria are not met.	
Specific target organ toxicity -	repeated exposure	
Summary	Based on available data the classification criteria are not met.	
Aspiration hazard Summary	Based on available data the classification criteria are not met.	
Ingestion	May cause discomfort if swallowed.	
Skin contact	Prolonged and frequent contact may cause redness and irritation.	
Eye contact	May cause temporary eye irritation.	
Acute and chronic health hazards	Because of the product's quantity and composition, the health hazard is regarded as low.	
SECTION 12: Ecological information		
Ecotoxicity	The product components are not classified as environmentally hazardous. However, large or frequent spills may have hazardous effects on the environment.	
Ecotoxicity 12.1. Toxicity Acute aquatic toxicity	The product components are not classified as environmentally hazardous. However, large or	
Ecotoxicity 12.1. Toxicity	The product components are not classified as environmentally hazardous. However, large or

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvBThis substance is not classified as PBT or vPvB according to current UK criteria.assessment

12.6. Other adverse effects

Other adverse effects

Not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

General information	When handling waste, the safety precautions applying to handling of the product should be considered.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste via a licensed waste disposal contractor.

SECTION 14: Transport information

General The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations The Control of Substances Hazardous to Health Regulations 2002 (SI 2002 No. 2677) (as amended).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information	
General information	Only trained personnel should use this material.
Revision comments	NOTE: Lines within the margin indicate significant changes from the previous revision.
Issued by	Regulatory Department
Revision date	07/04/2022
Revision	14
Supersedes date	30/03/2022
SDS status	Approved.
Hazard statements in full	H304 May be fatal if swallowed and enters airways.

The information provided in this document has been compiled on the basis of our current knowledge and is believed to be in accordance with the requirements of the Dangerous Substances Directive, Dangerous Preparations Directive and Safety Data Sheets Directive. The information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any particular conditions or process. The conditions and extent of storage and use of material are outside of our control and within the control of the possessor or user. Consequently it is the responsibility of the possessor or user to satisfy themselves as to the completeness of such information and the suitability of the material for their own particular circumstances, conditions or use.
